

**ΠΡΟΣΚΛΗΣΗ ΕΚΔΗΛΩΣΗΣ ΕΝΔΙΑΦΕΡΟΝΤΟΣ ΓΙΑ ΚΑΛΥΨΗ 1 ΘΕΣΗΣ MATH AND SCIENCES  
PROFESSOR ΜΕΡΙΚΗΣ ΑΠΑΣΧΟΛΗΣΗΣ**

"The Home Project" (THP), a civil non-profit company, was founded in December 2016 to meet the needs of refugee children who arrive in Greece on their own. It has created and operates shelters for unaccompanied minors in Athens, where holistic child protection services are provided.

The project is expected to operate with the co-financing of the European Union from the Greece Programme - Asylum, Migration and Integration Fund and is expected to last 12 months.

The aim of the project is the operation of Shelters in which services will be offered covering the whole range of protection needs of minors, such as food, housing, education, as well as material, psychosocial, medical and legal support, and social integration services. The main guidelines for the services provided relate to the safety and protection of minors, the development of the individual's personality, his or her maturation so that he or she is able to exercise his or her rights in an informed manner and, ultimately, his or her emancipation.

In this context, "The Home Project" announces a part-time Math and Sciences Professor position. The selected person will be employed on a 3 month contract with a possibility of renewal after evaluation. The employee will work 20 hours per week.

<b>Math</b>		<b>and</b>		<b>Sciences</b>		<b>Professor</b>
Reports	to:	Child	Protection	Unit	Assistant	(CPU Assistant)

## Overview

This role is responsible for providing hands-on tutoring and support, with a specific focus on Mathematics, Physics and Chemistry, in alignment with the Greek national educational framework. The Math and Sciences Professor is expected to cultivate an engaging and inclusive learning environment for children residing in THP shelters. Additionally, the role involves close collaboration with educators, staff, and external stakeholders to enhance educational programs, support students' academic development, and ensure the seamless integration of Math and Sciences education into THP's broader child protection and empowerment initiatives.

## Key Responsibilities and Duties

### Curriculum Development

- Design and implement educational curricula with a focus on mathematics, physics and chemistry, in accordance with the Greek national educational framework.
- Adapt teaching methods to accommodate diverse learning needs and backgrounds.
- Develop engaging lesson plans and instructional materials to enhance students' understanding and interest in these subjects.

### Teaching & Student Support

- Foster an inclusive and supportive learning environment for children in THP shelters.
- Provide personalized academic support to students, addressing individual learning challenges.
- Assess student progress and adjust teaching strategies to maximize learning outcomes.

### Collaboration & Stakeholder Engagement

- Work closely with THP educators, social workers, and external partners to strengthen educational programs.
- Coordinate with schools, academic institutions, and other stakeholders to facilitate students' academic development and integration.
- Participate in interdisciplinary meetings to align Math and Sciences education with THP's child protection and empowerment initiatives.

### Program Enhancement & Innovation

- Identify opportunities for improving Math and Sciences education within THP.
- Integrate hands-on learning experiences, such as experiments and projects, to enhance engagement.
- Stay updated on best practices in education and implement innovative teaching approaches.

### **Monitoring & Reporting**

- Track student performance and progress through assessments and feedback.
- Prepare reports on educational outcomes and program effectiveness.
- Provide recommendations for continuous improvement in education initiatives.

### **Qualifications**

#### **Education:**

- Bachelor's or Master's degree in Education, Mathematics and Sciences (Physics and Chemistry) fields, or a related discipline.
- Teaching certification

#### **Knowledge & Experience:**

- Work experience in a non-profit environment is highly desirable.
- Experience working with children from diverse or vulnerable backgrounds is an asset.
- Minimum of 2 years of teaching experience in Mathematics and Sciences subjects, preferably within the Greek national educational system.

#### **Skills:**

- Excellent written and verbal communication skills in both Greek and English.
- Strong multitasking and time management abilities, with the capacity to meet deadlines effectively.

- Proficiency in digital tools and technology to support teaching and administrative tasks.

#### **Desired Skills:**

- Excellent collaboration skills
- Problem solving abilities
- Advanced cultural awareness; good understanding and respect for different cultures, traditions and social dynamics
- Good people management skills, ability to guide and motivate
- Agility and flexibility to adapt to changing circumstances and requirements
- Passion for THP's mission and values
- High level of professionalism and integrity
- High level of self-motivation

#### **EVALUATION PROCEDURE**

As a first step, you are invited to send the following to a link that will be created through Indeed:

- Detailed curriculum vitae
- Cover letter

The closing date for submissions is 01/05/2025.

Due to urgency to cover the position the organization holds the right to hire the suitable candidate before the closing date.

For any clarifications, interested candidates may send queries to [hr@homeproject.org](mailto:hr@homeproject.org) up to 3 days before the closing date for submission of applications.

Job Type: Part-time

Application Deadline: 01/05/2025
