"The Home Project" (THP), a civil non-profit company, was founded in December 2016 to meet the needs of refugee children who arrive in Greece on their own. It has created and operates shelters for unaccompanied minors in Athens, where holistic child protection services are provided.

The project is expected to operate with the co-financing of the European Union from the Greece Programme - Asylum, Migration and Integration Fund and is expected to last 12 months.

The aim of the project is the operation of Shelters in which services will be offered covering the whole range of protection needs of minors, such as food, housing, education, as well as material, psychosocial, medical and legal support, and social integration services. The main guidelines for the services provided relate to the safety and protection of minors, the development of the individual's personality, his or her maturation so that he or she is able to exercise his or her rights in an informed manner and, ultimately, his or her emancipation.

In this context, "The Home Project" announces a full-time Marketing and Communications Manager position. The selected person will be employed on a 3 month contract with a possibility of renewal after evaluation.
